

FALCON SPILL ABSORBENTS

FALCON SPILL ABSORBENTS

DID YOU KNOW?

- ✦ In the United States, approximately 500,000 tons of pollutants pour into lakes and rivers each day.
- ✦ Over a third of the oil found in the sea comes from the land.
- ✦ Oil spills account for only 5% of oil entering the oceans.
- ✦ A single quart of used motor oil can contaminate a million gallons of water.
- ✦ 46% of the impaired rivers and lakes are polluted.
- ✦ In some countries the polluted rivers are 90%.
- ✦ 40% of the U.S rivers and streams are too polluted for fishing or swimming.
- ✦ That if we don't protect the water and control the spills we will need more than 75 years to restore the sea waters.
- ✦ When we bring some information is because is already late and we need to find the solution for protect our environment. Our company is on the environment business, but our main goal is not only the business, our main goals are restore and protect the world where our kids and new generations will grow. The goal of our company is bring to the world a new chance and we have the passion and the illusion for make it the world better.

FALCON SPILL ABSORBENTS IS A COMPANY IN CONSTANT "NEW PRODUCTS" DEVELOPING BECAUSE WE ARE MORE WORRIED FOR "WHAT WE DON'T KNOW", THAN "WHAT WE KNOW"... BE AWARE AND TAKE CARE OF YOUR PLANET... MANY COMPANIES WORLDWIDE TAKE IT CONSCIENCE ABOUT THIS PROBLEM AND ONE THING IS CLEAR, IF YOU CHANGE THE WORLD ALSO CHANGES!!!
